Versatile Software Engineer with over 2 years of experience developing backbone SQL code for data-driven applications. A mature team player with an optimistic attitude.

💼 Experience

2017 - present

Associate Software Engineer

Allscripts - Clinical Data Warehouse

- Handled the development of data-warehousing SQL code in an agile team consisting of 12 developers.
- Built deployment packages with SSIS and PowerShell that streamlined the on-boarding of 10+ clients.
- Implemented dev-op tools with C# and PowerShell to boost the productivity of my team by 50%.
- Responsible for being a point of contact to other teams regarding new product features.

2015 - 2017

Network Administrator

Communities in Schools of Wake County

- Solely responsible for the management of the IT department at a company with more than 50 employees.
- Implemented scripts with PowerShell to update software across user base, increasing efficiency by 70%.
- Integrated the use of Active Directory and cloud computing to boost organizational workflow by 30%.
- Gave speeches on the importance of college and mentored young adults at 2 schools in the Raleigh area.

🎓 Education

2012 - 2016

B.S. Computer Science

North Carolina State University, Raleigh, NC

- Worked with Dell/EMC on a capstone project designed to limit the use of compute resources on their backup servers.
  - **Project leader** -- Defined project scope and wrote requirements for an agile team of 4 developers.
  - Gave a presentation of our work to an audience comprised of 30+ tech companies in the RTP area.
- Pursued my passion for emerging technologies via classes on cloud computing and artificial intelligence.
- Member of the robotics club. Built robots, computers, and handheld game systems using the Raspberry Pi.
